

# IEEE WIE Activity Report 2022-2023

As of November 12, 2023

## Completed Activities

- **Conducted 12+ meetings each during 2022 and 2023;**
- **Organized a talk with local student chapter and YP group;**  
(10/26/2022: Women in Aerospace and Aviation “Expert Panel” event)
- **Promote material about history of women in STEM among members;**  
(10/7/2022: Activity during the “Job Search Guidance Panel” event)
- **Encourage young girls; – Promote a IEEE WIE STAR activity**  
Vice Chair Dr. Niure Kandel, in her capacity as Assistant Professor at Embry-Riddle Aeronautical University (ERAU) conducted a summer activity from 6/12 to 6/15/2023. The activity targeted area high school students to participate in a project titled “Basic cybersecurity education including how viruses are created, how to protect yourself against cyber attacks, Introduction to digital forensics, and cryptography.” It was attended by 28 students.
- **Leadership development for women.** (Coffee and B(r)agels, 3 events on 6/7/2023; 7/5/2023 and 7/26/2023.)

## Planned Activities that were put on hold

- **IEEE WIE Welcome Reception for new students;**  
(We were planning a Stand-up Yoga event outside at the ERAU campus, in collaboration with the ERAU Fitness Center.)
- **Technical visit to local industry site;**  
(We were planning an exclusive site visit to the Kennedy Space Center, but it had to be cancelled due to illness. Please note that this activity was restricted to US Citizens.)

## Potential Activities for 2024

- **Collaborate with a Daytona Section Program in 2024;**
- **Join the Life Members on their Tour of Dr. Rojas WIDE lab early 2024;** (gives the new WIE EXCOM an opportunity to meet active and engaged Section members).
