### PE Corner

#### Art Nordlinger, PE, Life Senior Member The Steps to Professional Licensure, Part 2

In my last column I discussed the beginning of the route to get your Professional Engineer license; taking the FE exam. This month I will focus on the next step, experience required and being an Engineering Intern (EI).

If an EI graduated with 4-year engineering degree, they must obtain 48 months of experience to qualify to apply to be a PE. An EI graduating with an approved Engineering Technology degree will need to complete 72 months of experience before being qualified to apply to be a PE.

What qualifies as experience? The type of employment considered acceptable must principally involve activities in the field of engineering as defined in *Section 471.005(7), F.S.* What qualifies as "experience" is found in *61G15-20.002, F.A.C. - Experience*. Some criteria considered for meeting the requirement includes:

Experience that logically follows and incorporates an application of the engineering education previously obtained.

Full-time experience obtained within 2 years of completing the engineering degree, that involves tasks and responsibilities consistent with the disciplines of engineering. Pre-graduation experience credit may be awarded at 50% of actual time, with total allowable credit for pre-graduation experience to not exceed 12 months.

**PE Corner - Cont'd from Page 1**

Experience on engineering projects that is progressive in nature, indicating an increase in quality and involving greater responsibility.

Experience gained under the supervision of a licensed professional engineer.

Experience gained in engineering research and design projects by members of an engineering faculty where the program is approved by the Board.

Experience that includes demonstration of a knowledge of engineering, mathematics, physical and applied science, properties of materials, and the fundamental principles of engineering design.

Experience that includes demonstration of the application of engineering principles in the practical solution of engineering problems.

A masters or doctorate engineering degree can count as 1-year of experience.

Additionally, an applicant must list three (3) personal references who are professional engineers.

These references cannot be the same individuals used to verify employment and experience.

To learn more about the examination and application process for the FE and PE exams go to the *Application Process* page under the *Licensure* section of FBPE's website at [www.fbpe.org](http://www.fbpe.org).

If you have questions related to qualifying experience contact the Board office at (850) 521-0500 and ask to speak to someone in the *Licensure Department*.

Next month I'll discuss the final step to licensure, the PE exam.

# SUCCESSFULLY CONDUCTED FWCS YEAR END GALA AND AWARDS BANQUET\*

SATURDAY, OCTOBER 25, 2025

*St. Pete Yacht Club, Banquet Room*

*Guy Perry, MC*

## SPEAKERS

*Hulya Kirkici, PhD*

*Isam El Naqa, PhD*

*Pathak Prabhakar, PhD*

## RECOGNITION PLAQUES

*Presented by*  
**Hermann Amaya**

*Hulya Kirkici, PhD*

*Isam El Naqa, PhD*

*Pathak Prabhakar, PhD*

## STUDENT AWARDS

*Presented by*  
**Ronald Ambrosio - Chair, Student Activities**

*Nathan Moses-Casio  
Vice Chair USF  
Student Branch*

*University of South Florida  
Computer Society  
Anzhelika Kurnikova  
Cesar Calderon  
Elan Berezovsky*

*Cyber Gabel  
Florida Poly  
CS Branch Chair*

## MEMBER RECOGNITION

Presented by  
**Andrew Seely**  
Vice Chair, Florida West Coast Section

*Hermann Amaya  
Outstanding Accomplishments  
as a Life Senior Member*

*Michael Mayor, MSE, PE  
Educator of the Year  
Chair, Florida West Coast Section*

*Certificates Awarded to the following Members,  
which were not present*

*Muhammad S. Ullah, PhD; Nuredin Joehar; Mrunal Gangrade  
For Outstanding Contributions to the SoutheastCon 2028 proposal*

*Holding the Certificates are: Andrew Seely, Barrett Werner and Leandro Maciel*

# TAMPA BAY E-WEEK BANQUET

This premier event celebrates excellence in STEM across our community. Local leaders and engineering professionals come together to honor outstanding Engineers, Science and Math Teachers, Students, and Young Professionals. The banquet also features the Lignell Awards, presented to exceptional high school educators advancing STEM education and inspiring future engineers. Hosted through the combined efforts of the Engineering Societies of West Central Florida, this event unites professionals from across Tampa and Florida's west coast to recognize achievement and promote the next generation of innovators.

**THURSDAY, FEBRUARY 26, 2026**

4:30 - 6:30 PM Networking & Exhibition

6:30 - 9:00 PM Dinner Program & Awards

SHANNA & BRYAN GLAZER  
JEWISH COMMUNITY CENTER  
522 N. HOWARD AVE  
TAMPA, FL 33606

CEO & CO-FOUNDER

## The Hard-Won Lesson: Transforming Challenge into Success

In this candid and inspiring keynote, Jay will reveal how turning over the reins to Local Motors - which he poured everything into - became the essential experience that fueled his latest, most ambitious endeavor. Join this opportunity to learn how to extract insights from challenging experiences, embrace unexpected transitions, and find the courage to Transform Your Future.

PROUDLY SUPPORTED BY FLORIDA'S ENGINEERING SOCIETIES

### SPEAKER LEVEL SPONSORSHIP \$2000

- Front Row Center Table with Speaker at Your Table
- Company logo displayed on signage at the event
- Receives up to 10 tickets
- Presents the Lignell Award
- Recognition at Speaker Sponsor level on event slideshow & program
- Recognition and link to website on the TBEWB website. Information about company and special acknowledgement will be made on the website
- Display Table in Reception Area

### PLATINUM LEVEL SPONSORSHIP \$1500

- Company logo displayed on signage at the event
- Receives up to 10 tickets to the awards banquet
- Recognition at Platinum Sponsor level on event slideshow & program
- Recognition and link to website on the TBEWB website. Information about company and special acknowledgement will be made on the website
- Display Table in Reception Area

### GOLD LEVEL SPONSORSHIP \$1200

- Company logo displayed on signage at the event
- Receives up to 5 tickets to the awards banquet
- Has company logo displayed at Gold Sponsor level on event slideshow & program
- Recognition and link to website on the TBEWB website
- Display Table in Reception Area, (if space available)

### SILVER LEVEL SPONSORSHIP \$900

- Company logo displayed on signage at the event
- Receives up to 2 tickets to the awards banquet
- Has company logo displayed at Silver Sponsor level on event slideshow & program
- Recognition and link to website on the TBEWB website

### BRONZE LEVEL SPONSORSHIP \$750

- Receives display table to present company products during the Pre-Dinner Social
- Recognition at the Bronze level in program and on the TBEWB website
- receives up to 1 ticket to the awards banquet

### VENDOR LEVEL SPONSORSHIP \$500

- Receives display table to present company products during the Pre-Dinner Social.
- Recognition at Vendor level in program and on the TBEWB website

### COMPANY SPONSOR TABLE \$1000

- Receives up to 10 tickets to the awards banquet

**\$900 EARLY BIRD PRICING**

*\*If purchased before 1/31/2026\**

## HARVEST CROO

November 14, 2025

Tampa, FL

Article by Sean Denny (STEM Champion/RAS Chair),  
Barrett Werner (RAS Recording Secretary)

IEEE Florida West Coast Section Robotics and Automation Society Chapter were invited to *Tour Harvest Croo* on November 14<sup>th</sup>, 2025. IEEE members, USF and FL Polytch Students arrived by 4pm totaling 17 in attendance. Harvest Croo builds automated harvesters for picking four rows of strawberries at a time that service farms down in Parrish, FL.

We began our tour in the conference room where the business was explained. Barrett Werner led the presentation and two team members, Ken Gardner, Director of Autonomous Development, and Joel Meine, Senior User Experience and Customer Experience Designer & Strategist, had dialed in and assisted with the opening presentation.

*Continued on Page 9*

*Harvest Croo - Cont'd from page 8*

From a distance, it looks like a Semi-Truck Trailer. The harvester picks, washes, inspects and packs the strawberries to send to market. The machine is designed to address a labor shortage in picking and drives down the cost for the consumer. The robot's stereo camera system utilizes a Machine Learning

(ML) model to determine the ripeness of the berries to ensure only ripe berries are harvested. In the inspection system, another ML model is used to detect disease to ensure only quality berries are packed to be sold.

Later, we toured the machine shop and had a robot demonstration. Barrett showed the robot picking multiple berries on one of their robot test rigs. They research and improve the data modeling in house.

Erik Schroeder, a Senior Mechanical Engineer, explained the grippers are FDA approved to resist mold and are detached for cleaning after every shift.

Please check out: <https://www.harvestcroorobotics.com/>

**Sean P Denny; [venner20@ieee.org](mailto:venner20@ieee.org)**  
**IEEE Senior Member**

**Chair, IEEE FWCS Robotics and Automation**

# IEEE CS TECHX Florida 2025

On November 8th, 2025, the IEEE Computer Society Student Branch Chapter at the University of South Florida hosted TechX Florida 2025, a free tech conference about artificial intelligence (AI) at the USF Tampa Campus. The conference is one of over a dozen TechX conferences throughout the world sponsored by the IEEE Computer Society Student & Young Professional Activities Committee. TechX Florida 2025, like TechX Florida 2024 at USF, was the only TechX hosted in IEEE Regions 1–7 (US & Canada).

Over 540 registrations led to 336 in-person attendees, out of which 51.5% were students from the University of South Florida, 34.8% were guests from industry, and 13.7% were students from 9 universities across the country. On the day of the event, 22 mighty volunteers were handling the event execution, including the key organizers, IEEE-CS at USF students such as Anzhelika Kurnikova (Chair), Vama Shah (Vice-Chair), Egor Kharitonov (Tech Chair), Elan Berezovski (Treasurer), and Sofia Mitsuyuki (Outreach Chair).

TechX Florida 2025 featured 2 simultaneous tracks of talks about AI, with 11 talks in total, by industry leaders from companies like Microsoft, Intel, Verizon, Jabil, JP Morgan Chase, and more. Moreover, it included a panel with 5 panelists about “Careers in Tech” by Careers in Technology from IEEE Northwest Florida, who facilitate interaction between attendees and panels of industry experts throughout the southeastern US. As Careers in Technology commented, it was the 2nd largest in-person attendance ever since the existence of the initiative in 2010.

In addition to the insights from talks, TechX Florida 2025 made an emphasis on professional development and connection to industry. It included free headshots by a professional photographer with an IEEE Computer Society branded backdrop sponsored by the IEEE Region 3 Young Professionals. Over 83 attendees participated in the headshots that were provided for 3 hours of the conference.

*Continued on Page 11*

*TechX Florida - Cont'd from Page 10*

Moreover, TechX Florida 2025 hosted a 5 hour long career fair with 9 participating organizations, including Verizon, Uber AI Solutions, USF Central IT, ISACA, and more. From those 9 organizations over 30 employees showed up to support the career fair. Also, the conference featured 2 networking sessions throughout the day.

The conference marketing campaign attracted 253,000 views on Instagram, reaching over 16,000 unique accounts, and 27,000 impressions on LinkedIn.

Check out the official conference website at

<https://techxflorida.com/>.

In addition, TechX Florida 2025 offered free complimentary coffee and donuts for the morning networking session as well as free lunch for all of its attendees. Free IEEE Computer Society branded merch was provided to everyone as well as the IEEE Computer Society Student Branch Chapter at the University of South Florida famous cat stickers.

Lastly, the IEEE-CS at USF team hosted a Social and Fundraiser for TechX Florida 2026 in the evening of TechX Florida 2025 called "TechX After Dark" with over 60 attendees. It provided one more opportunity for students and professionals to socialize in the more intimate setting with food as well as emphasized promoting the IEEE Computer Society memberships.

TechX Florida 2025 would not be possible without the financial support from the IEEE Florida West Coast Section and outreach support from the IEEE Computer Society Florida West Coast Section! See you at TechX Florida 2026!

## STUDENT ACTIVITIES

### Colby Bradford, FL Poly Student Branch Chair, [colby.bradford@ieee.org](mailto:colby.bradford@ieee.org)

Here at IEEE FL Poly we had an awesome October filled with fun and engaging events! Moving into November we are winding down for the Fall Semester with some final events and getting started on plans for an even better Spring Semester.

### Jacob Brescia, IEEE FL Poly HKN Chair

**HKN- IEEE HKN Mu Omega** has completed 2 highway cleanups this semester, with a total of 200 lbs. of trash collected off the side of State Road 33. IEEE.

**HKN Mu Omega is hosting** a Professional Engineering Speaker Event at Florida Polytechnic University Thursday 11/13.

*Continued on Page 13*

## Student Activities - Cont'd from Page 12

### Sahil Talwalker, IEEE FL Poly RAS Chair

**R.A.S.-** The Fall Semester is winding down, and we want to make sure we are prepared for Southeast Con next year. We split up the group meetings into one-on-one sessions and will be focusing on trying to get everyone to get their practice in learning a new skill. We have been focusing on getting one mechanism out week by week to get ourselves to a fully complete robot a lot sooner than before.

### Will Carrol; IEEE FL Poly PES Chair

**P.E.S.-** This month the PCB Competition with RAS concluded, with a winner being announced and their design being chosen for the Robotics Competition. The soldering workshop also took place, teaching students about J-STD, with roughly 80 students attending both for IEEE and for personal projects/skills and design. And finally, the mock circuit competition is being held soon, where students will be able to get familiar with their teammates for the upcoming circuit competition next semester, for the chance to attend Southeast Con.

**C.S.- Computer Society** has had an awesome past month of speaker events, workshops on Docker and Rust, and continuing work on the Escape Room Project! They also participated in the IEEEExtreme programming competition and had sponsorship/proctoring by FWCS Young Professionals Chair Aedan Casey. Big thanks to FWCS Young Professionals! Going forward they plan to continue escape room work and start preparing their programming team for Southeast Con programming competition. Look out Southeast Con!

**For the student branch**, our big event for October was our collaboration with the FL Poly American Society of Mechanical Engineers Student Chapter, FL Poly Career Services, and Lakeland Electric. We hosted engineers from Lakeland Electric to talk to students about a day in their jobs, what skills to look for, certifications to go for, and other general advice. Moving into November, planning for Southeast Con is underway, and planning for our own Engineering and Science Student Research Symposium is beginning! Be sure to be on the lookout for more info on ESSRS 2026 coming soon, we'd love to see you there!
