Price: \$20 members, guests, and students

RSVP: Andy Dozier
Secretary, IEEE Louisville Section
Email: adozier@awdozier.com

Please RSVP to adozier@awdozier.com no later than Dec. 1.

Topic: Modernization of the Electric Grid at LG&E and KU

Speaker: Nick Jewell, Ph.D., PMP

Abstract:

The electric distribution system is in a time of significant change. Increasing customer expectations and technological advances have reshaped what services are desired and how those services are delivered. LG&E and KU are in the process of implementing modern centralized monitoring and controls across the electric distribution system to better manage the service reliability, power quality, efficiency, and safety of energy delivered to customers.

Speaker Background:

Dr. Jewell received the Doctor of Philosophy degree in electrical engineering from the University of Louisville, Louisville, KY, USA, in 2014. He is currently the Group Leader of Electric Distribution Emerging Technologies Engineering with the Electrical Engineering and Planning Department at Louisville Gas and Electric and Kentucky Utilities (LG&E and KU).

Co-sponsored by:

Louisville Section of the IEEE

Lexington Section of the IEEE

Life Member Affinity Group of the Louisville Section
